The following material is the root of any element , system, or invention of my inventions ,which are all inventions from the beginning of creation till the end of the life.

حسوما

I designed system to execute every thing in the life in every time in every unit by basic unit which I called حسوما حسوما حسام and this system is executable in any field of life to any unit of time by execution of my principles, and by any connection to this system the whole system will be executed in any part of this system.

All parts are connected by the elements of life according to my concepts.

حسوما حسام حسوما: figure-1

My principles

1-my ground:

This is the starting point of all of my operations, and my ground is the center of any operation.

2-my point:

This is the convergence region between my coordinates.

3-my coordinates:

These are the regions of my operations.

4-my isometrics:

These are more, and more of my delta of any structure.

5-my touch:

**This is the rejection
between my effect, and
my cell&my section.**

6-my vision:

**This is the combination
between my cell&my
section, and my effect.**

7-my print:

**This is the combination
of my cell&my
section, my effect, and
my interaction with the
surrounding
environment.**

8-my delta:

**This is the combination
between my point ,and
my all principles.**

**9-my cell and my
section:**

**This is my direction of
my effect.**

10-my atom:

**This is any atom with
my effect.**

11-my positive:

**This is any positive with
my effect, and my
positive cooperate with
my ground and my**

**negative to complete
any operation.**

12-my negative:

**This is any negative
with my effect, and my
negative moves
between my ground, and
the Vacancy of my
negative to fairly
sufficient coverage of
my domain.**

13-my lean:

**This my collection of
the interactions**

**between more than one
coordinates of my
coordinates.**

14- my level:

**This is the combination
between my cell & my
section , and any level.**

15-my ground of level:

**This as the combination
between my level, and
my ground.**

16- my volt of level:

**This is my volt , which is
any volt with my cell
&my section.**

**17-my variations&the
number associated with
them:**

**These are the
convergence to infinity
in the number with my
cell&my section.**

Figure-2: My cell&my section

The rest of my principles are combinations of the above showed elements with حسوما . حسام حسوما

The basic idea

I designed efforts for creating system and the security of this system tends to fighting hacking and any attempts to unauthorized , or unauthenticated access, by making my elements as

حسوما حسام حسوما

.↕.

Automiation n

**By my system I can
automate partially, or
completely any system
in the world.**

**This is done by the
flowing of my positive,
my ground, my volt of
level, my negative, and
all of my principles**

**between the different
elements, parts , and
systems of the whole
system , under the
control of حسوما حسام
حسوما.**

New peoples

**By حسام حسوما
حسوما I can create
peoples in
categories
numbered in its
numbers and**

categories by my principles.

This is done the configuration of the time ,and the environment by حسام حسوما حسوما, and my principles.

Automiation n

By my system I can automate partially, or

**completely any system
in the world.**

**This is done by the
flowing of my positive,
my ground, my volt of
level, my negative, and
all of my principles
between the different
elements, parts , and
systems of the whole
system, under the
control of حسوما حسوما
حسام.**

**Fields of
automated life**

1-education.

2-goverments.

3-armies.

4-police.

5-weapons.

6-social life.

7-workers,and employers.

8-banking.

9-ministries.

**10-automization of the whole
life in any country ,and
between countries ,and in
sub field of it is my drawing
of speech which is done by
the flow of my
principles ,under the control
of**

حسام حسوما حسوما.

Corrections of others

I designed corrections to any any equation, electronics elements, circuits ,communications systems, control systems , and any kind of systems even if these systems are wrong.

This is done by the control of حسام حسوما حسوما, with my principles , and with

**the cooperation,
connections, and
communications of the
all elements, parts ,
systems of the whole
system.**

Go back in time

**I designed system to go
back in time.**

**This thing is done by
adding any required
entity required to go
back in time to my
ground, the get from my
ground, with my
principles the previous**

**state of this required
entity under the control
of حسوما حسوما حسام.**

Future, and the predication

**I designed system to go to
future, and system to
predicate the future.**

**This is done by adding the
state required to go to the
future , or the system
required to predict its
behaviour in the future to
my positive, then we get
the predicted state in the
future.**

Fighting diseases

My systems are valid with fighting diseases, and the production of drugs, methods of transporting& travel, ,interests, enterprises , bodies ,factories, banks, hospitals, companies ,universities, old buildings with repair& Modernization of the old, new buildings, Institutes, and the schools .

This is done by the overcome of the dis appointed, with the aid of

حسوما حسوما حسام

, weapons ,and the different parts of the whole system, with researches, reports ,sciences, and automization of evey thing.

condition ing

By applying حسوما حسام
حسوما I can get any
state, any temperature, any
condition, and any system.

This can lead to
connection between the
different parts of the whole
system and the execution
of this complete system.

And the transmission of the
needed ground, material,
and condition from part to

the working part leading to speeding of the whole system without disturbance of any part.

Adaptation

This can be done by containing حسام حسوما to the object like people , with reaction with environment ,and transmission inside

**object contained by
حسام حسوما of
the charge , condition ,
or creation of it to the
working, or required
part, then the stability
will be achieved.**

Methods of interaction between adaptation& conditioning

By connection ,or communications between

**حسام حسوما we
connect the whole system,and get the
various parts work all or some parts,and get
the methods of life.**

Methods of rejection between adaptation& conditioning

**By complete path of any
part we can get from far, or
near parts things
disappointed with each
others , which leading to get
domain available to others
parts to get their work.**

Methods of connection between adaptation&conditionin g

I can get the different parts of the system ,and

حسوما حسام حسوما complete
**each others in one part. connection in this part meted
with each other,or between some parts, or between
the complete parts.**

Augmented reality

By reactions between different parts of **حسوما حسام**

حسوما, and the whole system we construct complete picture represent the system or parts of the system in number converges to infinity of coordinates.

This picture can aid by the processing of its content the whole system.

Virtual reality

**By analysis of the
available system we can
construct a plan of
operations in the system
and make any available
required number of
companies, factories,
...,and any construction.**

**I designed control system
of my virtual reality by
methods, elements
,parts,and systems
converge in the number of**

connections, communications, and cooperation between each others to infinity.

The satellites

After getting stability in all systems in any environment between the components of the control system, we can get the structure of automation of the system of making rocket

Of satellite, firing it, communications of the satellite, and connection of the satellite of the world and the various parts of the whole system.

Space vehicle

After establishment of the satellite system and the connections of them with the various parts of the whole system, we get the

**space vehicle ,
which considered -> networks networks ,
nested loop,
and infinite loop
of
the satellite system.**

Space ships

**After establishment of the space vehicle and connections of
them with every parts of the whole system, we get the
space ships, which considered -> networks networks,
Nested loop,
And infinite loop of
The space vehicle.**

Satellite channels

They arise from connection, and communications between my grounds,

حسوما حسام حسوما, and other parts of the whole system according to my principles with my drawing of speech.

Control structure

Arise from the flow of work, my effect, different parts of the whole system, my principles, armies , police, and weapons.

by the time these methods will lead to new subjects of control methods with updates of the old methods, provide new applications, and frame for better control .

the frame spread in plan of coordinates in number converge to infinity.

My sciences

Arise from my drawing of speech, my effect ,broadcasting of the whole system, education, expierence from what happened in the past, from the prediction of the future, condition, cooperation between the different parts of the system, and encompassing with each element in the element of the science.

,and the continuity in any domain, or coordinate of my isometrics, by that we get cycle of the science and its applications in real world, and these applications in the same science, or in different sciences will cooperat , be connected, and communicate in every

**element, part, and system of
the whole system.**

My languages

**They are regular
languages with the
difference associated
with them arises my from
my effect, flow of work,
my principles, my
coordinates, my points,
my isometrics, my
drawing of work, and
expierece in regular**

**relations in all fields of
life.**

**,by the direction of my
languages in certain
coordinates, we get aflux
of researches, and reports
connected, communicated,
and cooperated with each
others to complete the
cycle of the life.**

**The
researches**

**Arise from my judge
,and my protection**

**of people, with the
existence of**

**حسوما حسوما حسام,
my grounds,
buildings, my
money, my
grounds, my
relations with my
people, and my
banks.**

**The
reports**

They arise from the databases of the structure of the researches ,their system, their elements, and they works to speeding of researches, the control of the researches systems ,increase in the number of researches to converge to the object of the reseaches, fairness ,and fairly sufficient coverage of the earth& sky.

The feed back

Arise from the need for controllable, and variable amount of output to guide the

input, and the system to the required target associated with the whole system.

The feed back is supported in many situations to the researches, and reports.

I can also get from each element, part, or system with my variations a number converges to infinity of feedback methods.

Filters

The simplest example of them is electronic filters, and they are required to pass, smoothing, and control the behaviour of signal in certain parts.

They help in security of the system, load in or multiplexing ,and shift of required part of the material ,or signal to the required conditions ,or state.

They also works under my principles, my coordinates, and my isometrics.

I can also get from each element, part, or system with my variations a

**number converges to
infinity of filters.**

Voltage control oscillators

**Arise from the need to get
the complete state,
conditions, and the
repeating of it at the future
with the reactions, and
communications with all
parts part part of the whole
system.**

**This must give uniform
structure of the elements of
the system.**

**I can also get from each
element, part, or system
with my variations a**

**number converges to
infinity of voltage control
oscillators.**

Phase locked loop

**To take certain section of
the signal and tracking it, to
meet the required target to
certain operation in the
same element ,part ,or
environment observed by
حسوما حسام حسوما .**

**I can also get from each
element, part, or system
with my variations a
number converges to**

infinity of phase locked loop.

Statics

They are the settlement of the observed ,and tracking element, part, or surrounding environment, under the whole system and my principles. From these statics arise channels to create researches from any available structure, such as buildings, devices ,communications channels,....

The number of these researches converge to infinity.

I can also get from each element, part, or system with my variations a number converges to infinity of statics mechanism.

Dynamics

They arises from the creation created by the motions, and the interactions between the elements of the system, and the environment.

They causes the stability of each part of the system and

**the environment with changing
in many conditions, such as:**

Velocity,

Frequency,

Temperature,

Volume,

Gravity ,

Mass,....,

And under my principles.

**With my principles such as my
cell& my section we get new
structures of researches in my
isometrics, and my coordinates
converge in the number to
infinity.**

**I can also get from each
element, part, or system
with my variations a
number converges to**

**infinity of dynamics
mechanisms.**

الاعلام (the (media

**After the completion of a
building of any element , part,
system, and project related to
the whole system arise the**

telling by حسوما حسام

**حسوما ,by flowing of the
work, and my drawing of
speech.**

**The telling helps in speeding,
controlling, increasing the
work, connection, and
communicatios fidelity, and
spreading.**

By the flow of the information with my effect there are new entities appear, and contribute in researches and their applications in the life.

I can also get from each element, part, or system with my variations a number converges to infinity of media systems.

Weapons

They are capsules, and structure created basically by

حسوما حسوما حسام,
and my principles.

They work to overcome at the objection of flow of the

**work, and for protection, and
they cooperate with
حسوما حسام حسوما and
the surrounding
environment.**

**They work basically
automatic, and automated,
the work also my the police
men, armies under the order
of**

**حسوما حسام حسوما,
the need.**

**With the aid of weapons we
can speeding of the whole
operations of the whole
system, and cover the whole
system.**

**By the work of weapons
there entities appear, and**

entities disappear, which lead to more and more researches, reports , and applications.

There are kinds of my weapons depend on the need for them, and time of their appearance, such as my centers, centers of centers,....

I can also get from each element, part, or system with my variations a number converges to infinity of weapons of any type.

ان الله بما تعملون بصير

With obeying of the god (الله) orders we get the system out of

حسام حسوما حسوما
work, and help the whole system to be under control of the god(الله) with fairly coverage of the earth , space ,and sky, we get the nature of every structure, and body.

Then new secrets of the life, and environment lead to new sciences, researches, reports, and in their inventions &applications.

I can also get from each element, part, or system with my variations a number converges to infinity of obeying the orders of the god(الله) and their results.

ان كيد الشيطان كان ضعيفا

This appear from the rule of the whole system, weapons,

حسوما حسام

حسوما, the overcome of the disappointed, and my controlling of each element of the whole system.

**All of the above occure at point
point of under the judge, and
protection done by the god(الله)&by me.**

**With expierence of these ,and
with my principles and their
numbers which converge to
infinity, cooperation,
connections, communications
of them, we get
researches ,reports,
applications, and inventions
converge in the number to
infinity.**

**اخرج منها مذءوما
مدحورا**

**After the above we get
region at any particular**

time empty of the devil and evil.

With the cooperation between these regions we get the speeding, control, connection of each element ,part, and system ,then communications between components of the whole system.

Then arise my isometrics with my principles, we get more and more researches, reports, inventions, and methods of the control of the whole system, converge in the number to infinity.

Twitter

We get by twitter comments trigger signals ,which build system supported the speeding , connection, communications, and the control between each element, part, and system of the whole system.

Which leads to the fairly, and sufficient coverage of the earth, sky , and space.

I can also get from each element, part, or system with my variations a number converges to infinity of twitters systems.

Judaism

**Combines between the obeying
of the god(الله),and the
disappointed of the god**

**الله)), with the whole system
associated with this state of
weapons, production of new
system ,elements ,and parts,
with the aid of حسوما حسام**

**حسوما , my effects, and the
overcome of the disaapointed ,
with my principles, and my
coordinates, environment, my
time, and my isometrics, with
the researches ,reports, and
my sciences**

Christianity

**Acted as Judaism with
my variations ,my**

**cell&mysections, and the
numbers associated with
it,and its effects in all
elements , parts, and
systems of the whole
system**

Isla

m

**The corrections from
the beginning with the
numbers ,and my
variations, associated
with it.**

**in all fields of the life
with the control of the
god(الله),which provide
the acceleration of the
whole operations of
the system,
connections ,
cooperations ,and
communications
between all elements,**

**parts ,and systems of the
whole system**

women

**The nature of her arise from
the inter action with the
surrounding environment, and
the air in all fields of the life
at any time.This is done by
the control of the roles of the
life,and religion**

Elimination of the violation and its consequences

**This arises from the
execution of each
element, part, and**

**system of the whole
system.**

**This also can cooperate
with weapons, حسوما
حسوما حسام , and my
effect to make speeding
get my required results.**

Cognit ive

**This arises from my
objection of my effect**

**on any
element ,subject,
part, and any system.**

**Which helps the
overcome of
disappointed ,
security risks, and
help to
speeding ,connection
,**

**حسوما حسوما حسام,
communications of
the systems, and the
whole**

System.

Money

**My money is the all money
with my effect, and**

حسوما حسام حسوما.

**The other are the money
before immediately
entering my systems, and**

حسوما حسام حسوما.

Treasures

**My treasurers are my
grounds that enter my
systems, my effect, and**

حسوما حسام حسوما.

**The others are my
grounds immediately
before enter my
systems,myeffect,and**

حسام حسوما حسوما

The banks

**They all are my
banks,but differe in
the time of
operation.**

**With the increasing
in the production of
money there are**

**new domain of
operations, and
interactions
between the
different entities of
the economy for
more ,and more
researches, reports,
and industries, with
my principles, my
coordinates, and my
isometrics.**

The companies

**My companies arise
from the efforts of
حسام حسوما حسوما.**

**The others arise
from حسوما حسام
حسوما efforts and
the environment
efforts.**

**From these efforts
with opmization of**

**the goals, arise the
new
sciences, researches,
and applications
of the sciences in
the efforts result in
new companies, and
the methods of
controlling these
companies.**

**The
factories**

My factories arise from the efforts of حسوما حسوما حسام , and the communications between my parts of the whole system.

The others converge to mine in the shortest time.

These factories build new frame of operations between the the workers of the same factory,or between different factories ,increasing the domain of researches ,and

**reports ,with my
principles,my
coordinates,and my
isometrics.**

The hospitals

**They arise from the
efforts of حسوما حسام
حسوما,and the
overcome of the
disappointed,with the
aid of weapons,and
the different parts of**

**the whole
system,with my
principles,my
coordinates,and my
isometrics,which lead
by the time for
optimization of the
efforts by the
researches ,reports,a
nd their applications
in the real life.**

**المؤسسات))Insti
tutions**

**They arise from my
companies, and my
factories, with the aid of
the banks, and the
researches , reports, and
the applications in the
real time , with
increasing by the
time , and my principles
in the number of
reseaches, reports, and
their applications.**

**Bo ((الهيات
dies**

They are :

**Networks networks,
Nested loops,
and Infinite loops of the
companies, and
factories, with the
presence of
researches, with my
principles.**

**Inte
((المصالح
rests**

**They collect between
the benefits of any
structure of
components of the
life.**

Armies

**My armies ,and all
armies contain my
people in distributed
plan, with
automated weapons.**

**By the time arise
the need for
more,and more
control of the whole
country,and the
whole system,which
lead for operating at**

**the available subject
of the current
time ,and get more
methods of control
by the
researches,and
reports in my
isometrics,and my
coordinates
converge with the
time,and my
principles.**

The police

**My police men are the
police men are nearest
to my weapons,under
the direct connection to
my rules,**

**حسوما حسام حسوما
,my systems,and the all
police men cooperate to
achieve the overcome
of the disappointed,
continue each others.
With more and more
relations between
people of the current
time,more and more
sciences arise with their**

**applications, and with
my principles.**

Tuning of automatic actions

**This tuning mean
encompassing with
the people more and
more in each part of
the whole system of
the earth, sky, and
space.**

**,Then by flow of
elements such as
charge in any
body ,we get subjects**

**applied to
researches ,and
applications create
new
elements,parts,and
systems
cooperate,connect,an
d communicate to
complete the cycle of
the whole system.**
